Mac is a violent, train hopping, drifter who has found himself wandering from small town to small town during the Great Depression. He is a sadist with no compunction about using robbery, or even murder, to survive. Although he seems happy-go-lucky, he can become annoyed or angered easily. To Mac, the world, and everything in it, are up for grabs to someone who is not afraid to use violence as a tool. Mac finds himself in the small town of Lago, which has had experience with murderers, and the citizenry are in fear of newcomers. As he drifts into a local bar, he picks up information about the town's wealthy doctor, who makes weekly bank deposits. After confirming this as true, he decides to stay a week in Lago with the aim of robbing the doctor during his next deposit. He spends a week committing petty robberies and drinking to excess until the day he can rob the doctor in an alleyway next to the bank. In a simple twist of fate, murderous Mac is killed by the more experienced murderer, old Doc Holmes; reminding all that no matter how big and bad a person may be, there's always someone bigger and badder...and more horrific...out there.

From Pen To Paper

Twenty-four prisoners--mostly lifers--sat across from a dozen college students on a maximum security prison yard in southern California as part of an innovative and inspiring creative writing program. For 14 weeks, prisoners learned to express themselves openly and honestly, many for the first time in their lives, to a group of strangers, in a setting where survival often demands alienation, disaffection, even violence. And the students--at first apprehensive, even hateful--discovered that the men across from them were far from the callous and unfeeling monsters they had expected to meet. Though their often intimate collaboration, both groups found hope and humanity in a place where they had expected neither.

I remembered my friends, his fans. Some say they are furious because they trusted and supported him the most, while some say the true fans will be there for him until the end. Can we keep being a fan? No, can we quit being a fan?
